The Members of CPARB -

I would like to express my interest in re-applying for the Owner County position for the Project Review Committee. Although not employed by a County directly, I ask the Board to consider my value as an Owner rep who can represent County interests as an owner agency should there be no other County rep applications.

I have served on the PRC the past three years and have furthered my experience in the provisions of RCW 39.10. I have participated in project reviews, chaired panels, and contributed on the re-authorization and GCCM heavy civil best-practices committees. I am a member of the City of Seattle's Internal Review Committee (our version of PRC), am currently managing an alternative delivery project, and have 17+ years of project/construction management practice for the City of Seattle. I have worked with multiple peer agencies and believe that I can represent the interests and concerns of local agencies including cities and counties on the PRC.

I have been a Project Manager for Owner agencies for 21 years, 17 in Washington State. I have managed over 30 projects through design and construction with increasing in scale, complexity, and community impact totaling nearly \$1.5B in capital investment. I previously led two large GC/CM transportation projects for the City of Seattle - First Hill Streetcar and Elliott Bay Seawall. I bring alternative delivery experience including procurement, risk allocation, subcontracting, women and minority business outreach, and negotiation. I am a knowledgeable and trusted communicator, have a proven track record of assembling appropriately qualified teams, and possesses a wealth of lessons learned of alternative delivery. I have a BS in Civil Engineering from the University of Michigan and am a licensed Professional Engineer.

I believe in the value of alternative delivery and will leverage the above skills to benefit capital projects and owner agencies across the state. Thank you in advanced for consideration.
