

Changes to local government self-insured employee health care adopted

The Department of Enterprise Services (DES) Office of Risk Management has updated rules for school employee health insurance in [WAC 200-110](#).

Stakeholders were invited to review the changes and provide comments through May 18, 2022.

Rule changes

- The School Employees Benefits Board (SEBB) has oversight over school employees' health insurance. In the past, school employee health insurance was part of the local government self-insurance program that DES oversees.
- Updates the rules on solvency and audit requirements for the remaining local governments that self-insure employee health care.
