

## Comments sought on proposed rules to allow State Board of Pilotage Commissioners to participate in self-insurance program

The Department of Enterprise Services (DES) Office of Risk Management is proposing a formal update to rules in [WAC-200-100](#) to align with changes in [state law](#) that allow the State Board of Pilotage Commissioners (the Board) to participate in a local government joint self-insurance program to obtain liability insurance.

DES oversees the state's self-insurance program. Stakeholders were invited to review the draft rule update and provide comments through May 24.

The Board's participation in the program does not include property insurance coverage and the Board is prohibited from receiving compensation for services rendered in connection with a self-insurance program.
