

Electrical Engineering & Computer Science Facility

Application to CPARB Project Review Committee for
Project Approval to **Utilize New Alternative Subcontracting**
under GC/CM **for Mass Timber structural system**

Team Members (in attendance)

Rick Benner, FAIA

University Architect and Senior Director,
Capital Planning and Development (CPD)

Forest Payne, AIA, Assoc DBIA, LEED AP

Project Manager – Architect, CPD

John Palewicz, AIA, DBIA

John Palewicz Consulting

Andy Clinch, AIA, LEED AP BD+C

Project Manager, Perkins + Will

Jennifer Kim, LEED AP

Project Executive, Mortenson Company

Keith Jurgens, Assoc. DBIA

Sr. Design Phase Manager, Mortenson Company

Project Overview

- New wing integrated into the existing Communications Facility, completed in 2003
- ~60,000 GSF new/
~20,000 SF renovation
- Offices and collaboration spaces, instructional and research lab spaces, serving Computer Science and Electrical & Computer Engineering programs and the Institute for Energy Studies
- Leading edge sustainability and energy targets fundamental to the curriculum of the facility
- **Mass Timber construction**

Alternative Subcontractor Selection

Justification

Meets criteria in newly revised RCW 39.10.385:

- Contract value of mass timber manufacturing, supply, detailing and installation **subcontract estimated to exceed \$3 million**
- GC/CM and Western determines alternative subcontractor selection **is in best interest of the public**

Other supporting criteria:

- Mass Timber has **significant lead times and unique proprietary systems** between manufacturers
- Complete **integration with design team & GC/CM** on structural detailing, shop drawings and coordination with MEP and other building systems
- Early and sustained guidance during design will help **ensure cost control and avoid system clashes**, and planning for means & methods, and weather protection during construction
- Allow for fabrication to begin immediately upon permit issuance, ready for erection as soon as foundation is complete

Alternative Subcontractor Selection

Public Benefit

- **Integrated team** will allow structural design and assembly to be planned with maximum efficiency
- Developing a construction phasing plan with the involvement of the mass timber manufacturer/supplier, detailer and erector to **avoid conflicts, including scheduling and cost impacts**
- Procurement of complex systems after design is mostly complete can often cause **high costs** associated with errors and omissions that can be **avoided with integrated collaboration during design**, and thorough constructability review.
- **Changes during construction often result in schedule delays** since decisions and cost agreement can take more time to resolve.

Alternative Subcontractor Selection

Cost impacts

- Minimal adjustment to pre-construction service fees
- Detailing and MEP coordination is required for the structural system, whether during design with early procurement, or after bidding if procured after 90% documents
- **Design phase fees offset by schedule advantage of early procurement**

Project Schedule

Pre-design	February - August 2020
PRC Presentation	December 3, 2020
RFP Issued	Early December 2020
Schematic Design kickoff	January 2021
GCCM Proposals due	Early January 2021
Shortlist & Interviews	January 2021
Final Proposal due, GCCM selection	Early February 2021
Board of Trustees approval of contract	February 2021
M/ECCM Procurement	April-June 2021
*Alternative Subcontractor Procurement	June-July 2021
100% Design Development	July 2021
90% Construction Documents	February 2022
Final GMP	July 2022
Board of Trustees approval of GMP	August 2022
Construction NTP	August 2022
Substantial Completion	January 2024
Occupancy	January - February 2024
Spring Quarter Classes Begin	March 2024

Business Equity

WWU is committed to maximizing outreach to and participation of diverse businesses (certified by OMWBE)

- GC/CM & M/ECCM **RFP's both dedicated significant share points available to diverse business plans**
- Mortenson set their **participation goal at 20%**
- M/ECCM's committed themselves to **meet or exceed that level**
