Seattle, WA 98195-2205

Re: Public Body DB Re-Certification Determination

Dear Mr. Palewicz:

The Capital Projects Advisory Review Board's Project Review Committee has determined that the University of Washington has met the criteria established in RCW 39.10 for public body Design Build (DB) certification. As of September 25, 2014 the University of Washington is re-authorized to utilize DB contracting procedures and is limited to no more than five projects with a total project cost between two and ten million dollars during the certification period of three years.

The University of Washington's re-certification will extend through November 30, 2017. A new application for certification will need to be submitted to the Project Review Committee at least three months prior to the above noted expiration date.

Under the terms of the law you will be required to submit project data to CPARB during any GC/CM project undertaken with this certification. Please identify your point of contact for supplying required project data information to CPARB staff person, Danelle Bessett, at Danelle.bessett@des.wa.gov.

Congratulations on the approval of your application.

Please contact Linneth Riley Hall at (206)398-5072 if you have any questions regarding this process.

Sincerely,

A handwritten signature in blue ink that reads "Linneth Riley Hall".

Linneth Riley-Hall, Chair
Project Review Committee

Cc: Curt Gimmestad - PRC Vice Chair
