23 transportation does not have the capacity to be the project manager
24 on a project and a local jurisdiction is ready, willing, and able to
25 implement the project within the time frames envisioned in the
26 omnibus transportation appropriations act. In developing its

3 modeling and development. In evaluating potential survey options, the
4 committee shall consider opportunities for the state to partner and
5 expand on developed established household travel surveys, including
6 surveys conducted at both the Puget Sound regional council and the
7 federal highway administration. In its recommendation, the committee
8 shall outline the process required for a statewide survey, including

36 by barge through the lower Snake river dams to highways, other roads,
37 and rail.

38 (a) The department shall include the independent review team in
39 all phases of the analysis to enable the team to develop an
40 independent assessment of the analysis, assumptions, stakeholder

38 technology-based safety and compliance program.

39 (c) The commission shall submit an interim report to the
40 transportation committees of the legislature by January 10, 2024,

5 flowering plants and grasses on the state highways rights-of-way and
6 at safety rest areas;

7 (iii) Assess the state highways rights-of-way land areas most
8 suitable for solar development by considering slope, elevation,

24 within the funding provided in this section, the department shall
25 analyze contracting methods, alternative bundling concepts, and other
26 options to manage costs. The department shall provide a report
27 outlining recommendations to the governor and transportation
28 committees of the legislature by December 15, 2024.

39 for vouchers under this program, but are eligible for fleet
40 assistance provided in association with the voucher program, which

1 must include assistance in determining state and federal grant
2 eligibility for these vehicles.

3 (v) The voucher amounts selected by the department and voucher
4 program third-party administrator must further the policy goals of
5 the program cited in (b)(i) of this subsection by offsetting
6 investments required for medium and heavy-duty vehicle and equipment
7 owners to transition to zero-emission vehicles and equipment. The
8 department and voucher program third-party administrator must
9 condition vehicle and infrastructure voucher funding to ensure these
10 program policy goals are furthered through the voucher funding
11 provided.

12 (vi) Consistent with voucher program design, the department is
13 required to distribute funds to the voucher program third-party
14 administrator sufficiently in advance of final requirements for
15 voucher distribution being met to facilitate the voucher's timely
16 distribution by the third-party administrator to sellers of zero-
17 emission vehicles and infrastructure.

19 development of specific candidate truck parking sites to be developed
20 with amenities, identified by location. The department shall identify
21 private land parcels for potential development of sites, which may
22 include, but should not be limited to, a feasibility analysis of
23 sites adjacent to Interstate 90 near North Bend for a 400 to 600
24 space truck parking site. The public benefit of each potential truck
25 parking site must be included in this assessment. The department
26 shall consider opportunities for the state to provide assistance in
27 the development of truck parking sites, including possible
28 opportunities to provide assistance in land acquisition and
29 evaluating land use requirements. The department must update the
30 transportation committees of the legislature on agency activities and
31 their status by December 1, 2023, and to provide a final report to

35 for grants, and to serve as a state match for secured federal funds,
36 to finance hydrogen refueling infrastructure for medium and heavy-
37 duty vehicles with a focus on locations in disadvantaged and
38 overburdened communities, where possible. The department, in
39 consultation with the interagency electric vehicle coordinating

1 council, should pursue any federal funding available through the
2 charging and fueling infrastructure discretionary grant program and
3 any other sources under the federal infrastructure investment and
4 jobs act (P.L. 29 117-58).

5 (9) Beginning January 1, 2025, \$800,000 of the carbon emissions

7 cities of Bellevue and Redmond to each purchase an electric fire
8 engine.

9 (10) Beginning January 1, 2025, \$1,725,000 of the carbon
10 emissions reduction account—state appropriation is provided solely
11 for a Tacoma Public Utilities medium-duty zero-emission utility
12 service vehicle pilot project that includes charging infrastructure
13 and mobile battery units.

33 The appropriations in this section are subject to the following
34 conditions and limitations:

35 (1) \$5,000,000 of the motor vehicle account—state appropriation
36 is provided solely for a contingency pool for snow and ice removal.
37 The department must notify the office of financial management and the
38 transportation committees of the legislature when they have spent the

1 base budget for snow and ice removal and will begin using the
2 contingency pool funding.

3 (2) (a) \$115,000 of the state route number 520 corridor account—
4 state appropriation is provided solely for the department to enter
5 into a dispute resolution process with local jurisdictions to produce
6 interagency agreements to address the ongoing facility and landscape

8 surrounding areas at the Evergreen Point Road, 84th Avenue NE, and
9 92nd Avenue NE.

10 (b) The agreements pursuant to (a) of this subsection must be
11 executed by June 30, 2024.

12 ~~(3) ((The appropriations in this section provide sufficient~~
13 ~~funding for the department assuming vacancy savings that may change~~
14 ~~over time. Funding for staffing will be monitored and adjusted in the~~
15 ~~2024 supplemental transportation appropriations act to restore~~

17 ~~(4))~~ (a) ~~(((\$7,000,000))~~ \$9,000,000 of the motor vehicle account—
18 state appropriation is provided solely for the department to address
19 the risks to safety and public health associated with homeless
20 encampments on department owned rights-of-way. The department must
21 coordinate and work with local government officials and social
22 service organizations who provide services and direct people to
23 housing alternatives that are not in highway rights-of-way to help
24 prevent future encampments from forming on highway rights-of-way and
25 may reimburse the organizations doing this outreach assistance who
26 transition people into treatment or housing or for debris clean up on
27 highway rights-of-way. A minimum of \$2,000,000 of this appropriation
28 must be used to deliver more frequent removal of litter on the
29 highway rights-of-way that is generated by unsheltered people and may
30 be used to hire crews specializing in collecting and disposing of
31 garbage, clearing debris or hazardous material, and implementing
32 safety improvements where hazards exist to the traveling public and
33 department employees. The department may use these funds to either
34 reimburse local law enforcement costs or the Washington state patrol
35 if they are providing enhanced safety to department staff during
36 debris cleanup or during efforts to prevent future encampments from
37 forming on highway rights-of-way.

38 (b) Beginning November 1, 2023, and semiannually thereafter, the
39 Washington state patrol and the department of transportation must
40 jointly submit a report to the governor and the transportation

1 committees of the legislature on the status of these efforts,
2 including:

3 (i) A summary of the activities related to addressing
4 encampments, including information on arrangements with local
5 governments or other entities related to these activities;

6 (ii) A description of the planned activities in the ensuing two
7 quarters to further address the emergency hazards and risks along
8 state highway rights-of-way; and

9 (iii) Recommendations for executive branch or legislative action
10 to achieve the desired outcome of reduced emergency hazards and risks
11 along state highway rights-of-way.

12 (~~(+5)~~) (4) \$1,000,000 of the motor vehicle account—state
13 appropriation is provided solely for a partnership program between
14 the department and the city of Spokane, to be administered in
15 conjunction with subsection (~~(+4)~~) (3) of this section. The program
16 must address the safety and public health problems created by
17 homeless encampments on the department's property along state
18 highways within the city limits. \$555,000 of the motor vehicle
19 account—state appropriation is for dedicated department maintenance
20 staff and associated clean-up costs. The department and the city of
21 Spokane shall enter into a reimbursable agreement to cover up to
22 \$445,000 of the city's expenses for clean-up crews and landfill
23 costs.

24 (~~(+6)~~) (5) \$1,025,000 of the motor vehicle account—state
25 appropriation is provided solely for the department to implement
26 safety improvements and debris clean up on department-owned rights-
27 of-way in the city of Seattle at levels above that being implemented
28 as of January 1, 2019, to be administered in conjunction with
29 subsection (~~(+4)~~) (3) of this section. The department must maintain
30 a crew dedicated solely to collecting and disposing of garbage,
31 clearing debris or hazardous material, and implementing safety
32 improvements where hazards exist to the traveling public, department
33 employees, or people encamped upon department-owned rights-of-way.
34 The department may request assistance from the Washington state
35 patrol as necessary in order for both agencies to provide enhanced
36 safety-related activities regarding the emergency hazards along state
37 highway rights-of-way in the Seattle area.

38 (~~(+7)~~) (6) \$1,015,000 of the motor vehicle account—state
39 appropriation is provided solely for a partnership program between

1 the department and the city of Tacoma, to be administered in
2 conjunction with subsection ~~((4))~~ (3) of this section. The program
3 must address the safety and public health problems created by
4 homeless encampments on the department's property along state
5 highways within the city limits. \$570,000 of the motor vehicle
6 account—state appropriation is for dedicated department maintenance
7 staff and associated clean-up costs. The department and the city of
8 Tacoma shall enter into a reimbursable agreement to cover up to
9 \$445,000 of the city's expenses for clean-up crews and landfill
10 costs.

11 ~~((8))~~ (7) \$1,500,000 of the motor vehicle account—state
12 appropriation is provided solely for the department to contract with
13 the city of Fife to address the risks to safety and public health
14 associated with homeless encampments on department-owned rights-of-
15 way along the SR 167/SR 509 Puget Sound Gateway project corridor in
16 and adjacent to the city limits pursuant to section 216(10), chapter
17 186, Laws of 2022. However, the amount provided in this subsection
18 must be placed in unallotted status and may not be spent prior to
19 November 1, 2023. If, after November 1, 2023, the department, in
20 consultation with the office of financial management, determines that
21 the department fully spent the \$2,000,000 appropriated in section
22 216(10), chapter 186, Laws of 2022, within the 2021-2023 fiscal
23 biennium for this purpose, the amount provided in this subsection
24 must remain in unallotted status and unspent. If the department did
25 not fully spend the \$2,000,000 within the 2021-2023 fiscal biennium,
26 the department may only spend from the appropriation in this
27 subsection an amount not in excess of the amount unspent from the
28 \$2,000,000 within the 2021-2023 fiscal biennium, with any remaining
29 amount to remain in unallotted status and unspent. In no event may
30 the department spend more than \$2,000,000 within the 2021-2023 and
31 2023-2025 fiscal biennia for this purpose.

32 (8) To the greatest extent practicable, the department shall
33 schedule mowing along state highways to occur after litter pickup has
34 been performed in the area to be mowed. This subsection is not
35 intended to prevent mowing or other similar maintenance activities
36 from being undertaken in the event litter pickup has not been
37 performed.

21		<u>\$105,979,000</u>

22 The appropriations in this section are subject to the following
23 conditions and limitations:

24 (1) \$6,000,000 of the motor vehicle account—state appropriation
25 is provided solely for low-cost enhancements. The department shall
26 give priority to low-cost enhancement projects that improve safety or
27 provide congestion relief. By December 15th of each odd-numbered
28 year, the department shall provide a report to the legislature
29 listing all low-cost enhancement projects completed in the prior
30 fiscal biennium.

31 (2) (a) During the 2023-2025 fiscal biennium, the department shall
32 continue a pilot program that expands private transportation
33 providers' access to high occupancy vehicle lanes. Under the pilot
34 program, when the department reserves a portion of a highway based on
35 the number of passengers in a vehicle, the following vehicles must be
36 authorized to use the reserved portion of the highway if the vehicle
37 has the capacity to carry eight or more passengers, regardless of the
38 number of passengers in the vehicle: (i) Auto transportation company
39 vehicles regulated under chapter 81.68 RCW; (ii) passenger charter

1 carrier vehicles regulated under chapter 81.70 RCW, except marked or
2 unmarked stretch limousines and stretch sport utility vehicles as
3 defined under department of licensing rules; (iii) private nonprofit
4 transportation provider vehicles regulated under chapter 81.66 RCW;
5 and (iv) private employer transportation service vehicles. For
6 purposes of this subsection, "private employer transportation
7 service" means regularly scheduled, fixed-route transportation
8 service that is offered by an employer for the benefit of its
9 employees. Nothing in this subsection is intended to authorize the
10 conversion of public infrastructure to private, for-profit purposes
11 or to otherwise create an entitlement or other claim by private users
12 to public infrastructure.

13 (b) The department shall expand the high occupancy vehicle lane
14 access pilot program to vehicles that deliver or collect blood,
15 tissue, or blood components for a blood-collecting or distributing
16 establishment regulated under chapter 70.335 RCW. Under the pilot
17 program, when the department reserves a portion of a highway based on
18 the number of passengers in a vehicle, blood-collecting or
19 distributing establishment vehicles that are clearly and identifiably
20 marked as such on all sides of the vehicle are considered emergency
21 vehicles and must be authorized to use the reserved portion of the
22 highway.

23 (c) The department shall expand the high occupancy vehicle lane
24 access pilot program to for hire nonemergency medical transportation
25 vehicles, when in use for medical purposes, as described in section
26 208((24) of this act)(20), chapter 472, Laws of 2023. Under the
27 pilot program, when the department reserves a portion of a highway
28 based on the number of passengers in a vehicle, nonemergency medical
29 transportation vehicles that meet the requirements identified in
30 section 208((24) of this act)(20), chapter 472, Laws of 2023 must
31 be authorized to use the reserved portion of the highway.

32 (d) Nothing in this subsection is intended to exempt these
33 vehicles from paying tolls when they do not meet the occupancy
34 requirements established by the department for express toll lanes.

35 (3) The appropriations in this section assume implementation of
36 additional cost recovery mechanisms to recoup at least \$100,000 in
37 credit card and other financial transaction costs related to the
38 collection of fees imposed under RCW 46.17.400, 46.44.090, and
39 46.44.0941 for driver and vehicle fee transactions beginning January

1 1, 2023. The department may recover transaction fees incurred through
2 credit card transactions.

3 (4) The department shall promote safety messages encouraging
4 drivers to slow down and move over and pay attention when emergency
5 lights are flashing on the side of the road and other suitable safety
6 messages on electronic message boards the department operates across
7 the state. The messages must be promoted through June 30, 2025. The
8 department may coordinate such messaging with any statewide public
9 awareness campaigns being developed by the department of licensing or
10 the Washington state traffic safety commission, or both.

11 (5) \$5,000,000 of the multimodal transportation account—state
12 appropriation is provided solely for the department to address
13 emergent issues related to safety for pedestrians and bicyclists.
14 Funds may only be spent after approval from the office of financial
15 management. By December 15th of each odd-numbered year, the
16 department shall provide a report to the legislature listing all
17 emergent issues addressed in the prior fiscal biennium.

18 ~~((7))~~ (6) \$3,529,000 of the highway safety account—state
19 appropriation is provided solely for implementation of chapter 17,
20 Laws of 2023 (speed safety cameras). ~~((If chapter 17, Laws of 2023 is
21 not enacted by June 30, 2023, the amount provided in this subsection
22 lapses.~~

23 ~~(8))~~ (7) \$1,279,000 of the move ahead WA account—state
24 appropriation is provided solely for maintenance and operations of
25 the virtual coordination center. The department is encouraged to
26 apply for federal grant funds for the virtual coordination center and
27 may use state funds as a match. By December 1, 2023, the department
28 shall report to the transportation committees of the legislature: (a)
29 Recommendations to expand the center's operations, including specific
30 additional jurisdictions and corridors across the state; and (b)
31 amounts received and dates of receipt of any new cash and in-kind
32 matches from virtual coordination center partners including, but not
33 limited to, the city of Seattle, King county, other state and local
34 jurisdictions, and private sector partners.

35 ~~((9))~~ (8) \$100,000 of the motor vehicle account—state
36 appropriation is provided solely for the department to prepare and
37 submit a report to the transportation committees of the legislature
38 by December 1, 2024, with a prioritized list of recommendations for
39 improving safety and mobility on Interstate 90 between North Bend and

1 Cle Elum during winter weather events, including estimated costs. The
2 recommendations must include, but are not limited to, options to
3 improve compliance with traction tire and chain requirements and
4 reduce snow-related closures.

5 ~~((11))~~ (9)(a) \$5,000,000 of the motor vehicle account—state
6 appropriation is provided solely for the department, in coordination
7 with the independent review team of the joint transportation
8 committee, to conduct an analysis of highway, road, and freight rail
9 transportation needs, options, and impacts from shifting the movement
10 of freight and goods that currently move by barge through the lower
11 Snake river dams to highways, other roads, and rail. The study should
12 generate volume estimates and evaluate scenarios for changes in
13 infrastructure and operations that would be necessary to address
14 those additional volumes. The assessment must include quantitative
15 analysis based on available data in terms of both financial and
16 carbon emission costs; and qualitative input gathered from tribal
17 governments, local governments, freight interests, and other key
18 stakeholders, including impacts on disadvantaged/underserved
19 communities. The analysis must include a robust public engagement
20 process to solicit feedback from interested stakeholders including
21 but not limited to: Residents and officials in affected cities and
22 counties; stakeholders involved in railroad, agriculture, fishing,
23 trucking, shipping and other related industries; appropriate Native
24 American tribes; representatives of advocacy and community
25 organizations; and transportation, public works, and economic
26 development organizations in the affected areas, federal highway
27 administration and army corps of engineers. The analysis must be
28 informed by the work of the joint transportation committee's
29 independent review team, and must include the following:

30 (i) Existing volumes and traffic patterns;

31 (ii) Potential changes in volumes and traffic patterns
32 immediately following the loss of freight movement by barge and over
33 the following 20 years, including the carbon emissions impact of this
34 mode shift;

35 (iii) Identification of whether regional geography, land
36 availability, and state and federal regulatory processes would allow
37 for rail and road expansions and increased capacity;

38 (iv) Identification of potential infrastructure and operational
39 improvements to existing highways, other roads, and rail, including
40 additional access to facilities, needed to accommodate the higher

1 freight volumes and impacts and potential opportunities to mitigate
2 impacts on shipping rates;

3 (v) Identification of rail line development options, including
4 impacts and potential opportunities to mitigate impacts on grain
5 storage and handling facilities at regional unit train yards and port
6 export facilities;

7 (vi) An assessment of costs associated with mitigating potential
8 slope failure and stabilization necessitated by the drawdown of the
9 river. An assessment of impacts and potential opportunities to
10 mitigate impacts on adjacent roads, bridges, railroads, and utility
11 corridors shall be included;

12 (vii) Both financial and carbon cost estimates for development
13 and implementation of identified needs and options, including
14 planning, design, and construction;

15 (viii) Analysis of the impacts and potential opportunities to
16 mitigate impacts of these infrastructure changes on environmental
17 justice and disadvantaged/underserved communities during
18 construction, as well as from future operations;

19 (ix) Analysis of safety impacts and potential opportunities to
20 mitigate impacts for a shift from barge transportation to rail or
21 truck, including increases in rural community traffic and consistency
22 with the Washington State Strategic Highway Safety Plan: Target Zero;

23 (x) Impacts and potential opportunities to mitigate impacts on
24 highly affected commodities, including agriculture, petroleum,
25 project cargo, and wind energy components;

26 (xi) Analysis of the impacts and potential opportunities to
27 mitigate impacts that reduced competition resulting from removing
28 barging of agricultural products on the Snake river would have on
29 Washington's agricultural industry along with impacts modal shifts
30 would have on the entire supply chain, including export facilities
31 and ports on the Lower Columbia River; and

32 (xii) Determination of the feasibility that additional east-west
33 freight rail capacity can be achieved, particularly through Columbia
34 River Gorge, and the alternative routes that exist in the event that
35 adding more infrastructure on these routes is not feasible.

36 (b) The department shall provide status updates on a quarterly
37 basis in coordination with the joint transportation committee. The
38 legislature intends to require a final report to the governor and the
39 transportation committees of the legislature by December 31, 2026.

1 (10) \$2,000,000 of the highway safety account—state appropriation
2 is provided solely for the department, in consultation with the
3 Washington traffic safety commission, to evaluate and identify
4 geographical locations in both urban and rural highway settings to
5 install and implement wrong-way driving prevention strategies. Such
6 prevention strategies may include improved signage and pavement
7 markings as recommended by the traffic safety commission's report on
8 wrong-way driving, "Strategies and Technologies to Prevent and
9 Respond to Wrong-Way Driving Crashes." The department must report to
10 the legislature any crash data or wrong-way violations that occur at
11 the selected locations by June 30, 2025.

12 (11) \$1,000,000 of the motor vehicle account—state appropriation
13 is provided solely for the department to develop an automated highway
14 speed safety camera pilot program to test two to three automated
15 traffic safety cameras on state highways. The goals of the automated
16 highway speed safety camera pilot program are to test speed camera
17 technology, determine the impact on speeding behavior in areas of
18 testing, and compile public response to the use of traffic safety
19 cameras on highways.

20 (a) The department must work with the Washington state patrol and
21 the traffic safety commission to develop the pilot program to
22 include, but not be limited to, the following program elements:

23 (i) Selection of technology;

24 (ii) Placement of cameras in high speed, collision, or fatality
25 locations;

26 (iii) Establishment of public notification and warning signs
27 prior to entering into an area with a speed safety camera;

28 (iv) Outreach and public engagement about the program and site
29 selection process; and

30 (v) Development and implementation of a process to collect and
31 report relevant pilot program data, including rates of speed prior
32 to, during, and after the use of pilot program cameras, and public
33 response to pilot program cameras.

3 the 2025-2027 fiscal biennium.

4 (c) The by facility ranking developed under (b) of this
5 subsection must be the basis of an agency budget submittal for the
6 2025-2027 fiscal biennium.

7 (3) (a) \$1,200,000 of the multimodal transportation account—state
8 appropriation is provided solely for the department to evaluate
9 safety rest areas along Interstate 5 and Interstate 90 for potential
10 truck parking expansion opportunities. The department shall also
11 evaluate commercial vehicle inspection locations, in coordination
12 with the Washington state patrol, for potential truck parking
13 expansion opportunities.

14 (b) These evaluations must include assessments of opportunities
15 to provide additional truck parking through rest stop and inspection
16 location reconfiguration, expansion, and conversion, as well as
17 evaluation of potential improvements to restroom facilities at weigh
18 stations with truck parking. The department shall consider
19 opportunities to expand rest stop footprints onto additional
20 department-owned property, as well as opportunities to acquire
21 property for rest stop expansion. Opportunities to convert a rest
22 stop to a commercial vehicle-only rest stop must be considered if
23 property is available to develop a new light-duty vehicle rest stop
24 within a reasonable distance. The department shall include an
25 evaluation of a potential truck parking site at John Hill Rest Area
26 along the Interstate 90 corridor identified in the joint
27 transportation committee's "Truck Parking Action Plan." Evaluations
28 must include cost estimates for reconfiguration, expansion, and
29 conversion, as well as other recommendations for the development of
30 these sites.

31 (c) The department should consult with the federal highway
32 administration, the Washington state patrol, the Washington trucking
33 association, the freight mobility strategic investment board, and
34 local communities.

35 (d) The department must update the transportation committees of
36 the legislature on agency activities and their status by December 1,
37 2023, and to provide a final report to the transportation committees
38 of the legislature by December 1, 2024.

39 (4) \$15,457,000 of the motor vehicle account—state appropriation
40 is provided solely for making improvements to the department facility

1 located at 11018 NE 51st Cir in Vancouver to meet the Washington
2 state clean buildings performance standard.

3 (5) (a) \$4,100,000 of the move ahead WA account—state
4 appropriation is provided solely for preliminary engineering and
5 design associated with the demolition and replacement of the
6 department's vehicle repair and parts building at 6431 Corson Avenue
7 South in Seattle. The department must include any requested
8 construction costs of the facility as a separate project as part of
9 its agency budget submittal for the 2025-2027 fiscal biennium
10 utilizing form C-100 for capital projects. The design information
11 must also include detailed information on square footage, components
12 of the facility, and cost comparisons with similar maintenance
13 facilities.

14 (b) By September 1, 2024, the office of financial management, in
15 consultation with the department, must develop criteria for
16 preservation and improvement minor works lists for the department's
17 facilities program. The criteria must incorporate, adjusted where
18 appropriate, provisions already in use in the omnibus capital budget
19 act for minor works, including: (i) The dollar limitation for each
20 project to be included in the list; (ii) the types of projects
21 appropriate to be included in the list; (iii) the project length
22 limitation appropriate to be included in the list; and (iv) a
23 recommended initial allotment, revision request approval, and
24 revision notification process associated with the list. The criteria
25 must be the basis of the preservation and improvement minor works
26 list included in the agency budget submittal beginning with the
27 2025-2027 fiscal biennium.

28 (c) By September 1, 2024, the office of financial management, in
29 consultation with the department, must also develop criteria for
30 providing building related capital requests in a comparable format,
31 adjusted where appropriate, to provisions already in use in the
32 omnibus capital appropriations act for building projects, including
33 the C-100 capital request form and other detail requirements for
34 omnibus capital appropriations act building submissions.

1 (b) The director of the office of financial management must first
2 provide written authorization for such transfer to the department and
3 the transportation committees of the legislature.

4 (c) The department shall submit a report on appropriation
5 authority transferred in the prior fiscal year using this subsection
6 as part of the department's annual budget submittal.

7 (4) The connecting Washington account—state appropriation
8 includes up to (~~(\$1,737,009,000)~~) \$1,332,926,000 in proceeds from the
9 sale of bonds authorized in RCW 47.10.889.

10 (5) The special category C account—state appropriation includes
11 up to (~~(\$118,773,000)~~) \$111,106,000 in proceeds from the sale of
12 bonds authorized in RCW 47.10.812.

13 (6) The transportation partnership account—state appropriation
14 includes up to (~~(\$32,643,000)~~) \$46,899,000 in proceeds from the sale
15 of bonds authorized in RCW 47.10.873.

16 (7) The appropriations in this section include savings due to
17 anticipated project underruns; however, it is unknown which projects
18 will provide savings. The legislature intends to provide sufficient
19 flexibility for the department to manage to this savings target. To
20 provide this flexibility, the office of financial management may
21 authorize, through an (~~allotment~~) appropriation modification,
22 reductions in the amounts that are provided solely for a particular
23 purpose within this section subject to the following conditions and
24 limitations:

25 (a) The department must confirm that any modification requested
26 under this subsection of amounts provided solely for a specific
27 purpose are not expected to be used for that purpose in this fiscal
28 biennium;

29 (b) (~~Allotment~~) Appropriation modifications authorized under
30 this subsection may not result in increased funding for any project
31 beyond the amount provided for that project in the 2023-2025 fiscal
32 biennium in LEAP Transportation Document (~~(2023-2)~~) 2024-2 ALL
33 PROJECTS as developed (~~(April 21, 2023)~~) March 6, 2024;

34 (c) (~~Allotment~~) Appropriation modifications authorized under
35 this subsection apply only to amounts appropriated in this section
36 from the following accounts: Connecting Washington account—state, and
37 move ahead WA account—state; and

38 (d) The office of financial management must provide notice of
39 (~~allotment~~) appropriation modifications authorized under this

1 subsection within 10 working days to the transportation committees of
2 the legislature. By December 1, 2023, and December 1, 2024, the
3 department must submit a report to the transportation committees of
4 the legislature regarding the actions taken to date under this
5 subsection.

6 (8) The department shall itemize all future requests for the
7 construction of buildings on a project list and submit them through
8 the transportation executive information system as part of the
9 department's annual budget submittal. It is the intent of the
10 legislature that new facility construction must be transparent and
11 not appropriated within larger highway construction projects.

12 (9) The legislature continues to prioritize the replacement of
13 the state's aging infrastructure and recognizes the importance of
14 reusing and recycling construction aggregate and recycled concrete
15 materials in our transportation system. To accomplish Washington
16 state's sustainability goals in transportation and in accordance with
17 RCW 70A.205.700, the legislature reaffirms its determination that
18 recycled concrete aggregate and other transportation building
19 materials are natural resource construction materials that are too
20 valuable to be wasted and landfilled, and are a commodity as defined
21 in WAC 173-350-100.

22 (10) By June 30, 2025, to the extent practicable, the department
23 shall decommission the facilities for the Lacey project engineering
24 office and the Tumwater project engineering office at the end of
25 their lease terms and consolidate the Lacey project engineering
26 office and the Tumwater project engineering office into the
27 department's Olympic regional headquarters.

28 (11) The legislature intends that any savings realized on the
29 following projects will not be attributable to the application of
30 practical design, retired risk, or unused contingency funding for the
31 purposes of RCW 47.01.480:

32 (a) I-5/Marvin Road/SR 510 Interchange (L1100110); and

33 (b) I-82/EB WB On and Off Ramps (L2000123).

34 (12) (a) (~~(\$300,000,000)~~) \$337,114,000 of the coronavirus state
35 fiscal recovery fund—federal appropriation, (~~(\$312,653,000)~~)
36 \$110,439,000 of the motor vehicle account—federal appropriation,
37 (~~(\$427,459,000)~~) \$576,827,000 of the move ahead WA account—state
38 appropriation, and (~~(\$1,293,000)~~) \$8,329,000 of the motor vehicle
39 account—state appropriation are provided solely for the Fish Passage

1 Barrier Removal project (OBI4001) with the intent of fully complying
2 with the federal *U.S. v. Washington* court injunction by 2030.

3 (b) The fish passage barrier removal program, in consultation
4 with the office of innovative partnerships, shall explore
5 opportunities to employ innovative delivery methods to ensure
6 compliance with the court injunction including, but not limited to,
7 public-private partnerships and batched contracts. It is the intent
8 of the legislature that appropriations for this purpose may be used
9 to jointly leverage state and local funds for match requirements in
10 applying for competitive federal aid grants provided in the
11 infrastructure investment and jobs act for removals of fish passage
12 barriers under the national culvert removal, replacement, and
13 restoration program. State funds used for the purpose described in
14 this subsection must not compromise full compliance with the court
15 injunction by 2030.

16 (c) The department shall coordinate with the Brian Abbott fish
17 passage barrier removal board to use a watershed approach by
18 replacing both state and local culverts guided by the principle of
19 providing the greatest fish habitat gain at the earliest time. The
20 department shall deliver high habitat value fish passage barrier
21 corrections that it has identified, guided by the following factors:
22 Opportunity to bundle projects, tribal priorities, ability to
23 leverage investments by others, presence of other barriers, project
24 readiness, culvert conditions, other transportation projects in the
25 area, and transportation impacts. The department and Brian Abbott
26 fish barrier removal board must provide updates on the implementation
27 of the statewide culvert remediation plan to the legislature by
28 November 1, 2023, and June 1, 2024.

29 (d) The department must keep track of, for each barrier removed:
30 (i) The location; (ii) the amount of fish habitat gain; and (iii) the
31 amount spent to comply with the injunction.

32 (e) During the 2023-2025 fiscal biennium, the department shall
33 provide reports of the amounts of federal funding received for this
34 project to the governor and transportation committees of the
35 legislature by November 1, 2023, and semiannually thereafter.

36 (13) (a) (~~(\$6,000,000 of the move ahead WA account state~~
37 ~~appropriation)) \$15,000,000 of the model toxics control stormwater
38 account—state appropriation is provided solely for the Stormwater
39 Retrofits and Improvements project (L4000040). It is the intent of~~

1 the legislature, over the 16-year move ahead WA investment program,
2 to provide \$500,000,000 for this program.

3 (b) (~~The appropriation in this subsection~~) Of the amounts
4 provided in this subsection, \$6,000,000 is provided solely for the
5 Urban Stormwater Partnership - I-5 Ship-Canal Bridge Pilot (Seattle)
6 project.

7 (c) The funding provided for stormwater retrofits and
8 improvements must enhance stormwater runoff treatment from existing
9 roads and infrastructure with an emphasis on green infrastructure
10 retrofits. Projects must be prioritized based on benefits to salmon
11 recovery and ecosystem health, reducing toxic pollution, addressing
12 health disparities, and cost-effectiveness. The department of
13 transportation must submit progress reports on its efforts to reduce
14 the toxicity of stormwater runoff from existing infrastructure,
15 recommendations for addressing barriers to innovative solutions, and
16 anticipated demand for funding each fiscal biennium.

17 (14) (a) (~~(\$35,465,000)~~) \$25,067,000 of the connecting Washington
18 account—state appropriation is provided solely for the SR 3 Freight
19 Corridor (T30400R) project. The legislature intends to provide a
20 total of \$78,910,000 for this project, including an increase of
21 \$12,000,000 in future biennia to safeguard against inflation and
22 supply/labor interruptions and ensure that:

23 (i) The northern terminus remains at Lake Flora Road and the
24 southern terminus at the intersection of SR 3/SR 302; and

25 (ii) Multimodal safety improvements at the southern terminus
26 remain in the project to provide connections to North Mason school
27 district and provide safe routes to schools(~~;~~ ~~and~~

28 ~~(iii) Intersections on the freight corridor are constructed at~~
29 ~~Romance Hill and Log Yard road)).~~

30 (b) With respect to right-of-way acquisition and the construction
31 of the SR 3 Freight Corridor project (T30400R), tribal consultation
32 with the Suquamish tribe shall begin at the earliest stage of
33 planning, including without limitation on all funding decisions and
34 funding programs, to provide a government-to-government mechanism for
35 the tribe to evaluate, identify, and expressly notify governmental
36 entities of any potential impacts to tribal cultural resources,
37 archaeological sites, sacred sites, fisheries, or other rights and
38 interests in tribal lands and lands within which the tribe possesses
39 rights reserved or protected by federal treaty, statute, or executive
40 order. The consultation is independent of, and in addition to, any

1 public participation process required under state law, or by a state
2 agency, including the requirements of Executive Order 21-02 related
3 to archaeological and cultural resources, and regardless of whether
4 the agency receives a request for consultation from the Suquamish
5 tribe. Regularly scheduled tribal consultation meetings with the
6 Suquamish tribe shall continue throughout the duration of any funding
7 or program decisions and proposed project approval.

8 (15) \$6,000,000 of the move ahead WA account—state appropriation
9 and \$10,000,000 of the move ahead WA account—federal appropriation
10 are provided solely for the SR 3/Gorst Area - Widening project
11 (L4000017). Tribal consultation with the Suquamish tribe must begin
12 at the earliest stage of planning, including, without limitation, all
13 funding decisions and funding programs, to provide a government-to-
14 government mechanism for the tribe to evaluate, identify, and
15 expressly notify governmental entities of any potential impacts to
16 tribal cultural resources, archaeological sites, sacred sites,
17 fisheries, or other rights and interests in tribal lands and lands
18 within which the tribe possesses rights reserved or protected by
19 federal treaty, statute, or executive order. The consultation is
20 independent of, and in addition to, any public participation process
21 required under state law, or by a state agency, including the
22 requirements of Executive Order 21-02 related to archaeological and
23 cultural resources, and regardless of whether the agency receives a
24 request for consultation from the Suquamish tribe. Regularly
25 scheduled tribal consultation meetings with the Suquamish tribe must
26 continue throughout the duration of any funding program and proposed
27 project approval.

28 (16) (a) (~~(\$84,500,000)~~) \$94,500,000 of the move ahead WA account—
29 federal appropriation, \$137,500,000 of the move ahead WA account—
30 private/local appropriation, and (~~(\$53,000,000)~~) \$43,000,000 of the
31 move ahead WA account—state appropriation are provided solely for the
32 I-5 Columbia river bridge project (L4000054). The legislature finds
33 that the replacement of the I-5 Columbia river bridge is a project of
34 national significance and is critical for the movement of freight.
35 One span is now 105 years old, at risk for collapse in the event of a
36 major earthquake, and no longer satisfies the needs of commerce and
37 travel. Replacing the aging interstate bridge with a modern,
38 seismically resilient, multimodal structure that provides improved
39 mobility for people, goods, and services is a high priority.

1 Therefore, the legislature intends to support the replacement of the
2 I-5 Columbia river bridge with an investment of \$1,000,000,000 over
3 the 16-year move ahead WA investment program.

4 (b) The legislature recognizes the importance of the I-5/Mill
5 Plain Boulevard project (L2000099) and intends to provide funding for
6 reconstruction of the existing interchange in coordination with
7 construction of the Interstate 5 bridge over the Columbia river.

8 (c) The department shall provide regular updates on the status of
9 ongoing coordination with the state of Oregon on any bistate
10 agreements regarding sharing of revenues, use of revenues, and fiscal
11 responsibilities of each state. Prior to finalizing any such
12 agreement, the department shall provide a draft of the agreement to
13 the transportation committees of the legislature for review and
14 input. Additionally, the department shall advise on the status of any
15 bistate agreements to the joint transportation committee beginning in
16 September 2023 and quarterly thereafter until any agreements are
17 finalized.

18 (17) The legislature recognizes the importance of the US-12/Walla
19 Walla Corridor Improvements project (T20900R) and intends to advance
20 funding to provide matching funds if competitive federal funding is
21 awarded for the final remaining four-lane section between Wallula and
22 Nine Mile Hill. The department, in consultation with local
23 governments in the vicinity, must pursue any federal funding
24 available.

25 (18) \$2,642,000 of the move ahead WA account—state appropriation
26 is provided solely for the US 101/Simdars Bypass project (L4000013).

27 (19) (~~(\$570,842,000)~~) \$338,512,000 of the connecting Washington
28 account—state appropriation, (~~(\$155,000)~~) \$3,109,000 of the
29 multimodal transportation account—state appropriation,
30 (~~(\$26,537,000)~~) \$27,201,000 of the motor vehicle account—private/
31 local appropriation, (~~(\$200,800,000)~~) \$178,543,000 of the move ahead
32 WA account—federal appropriation, (~~(\$68,191,000)~~) \$36,370,000 of the
33 move ahead WA account—state appropriation, and (~~(\$6,980,000)~~)
34 \$211,131,000 of the motor vehicle account—federal appropriation are
35 provided solely for the SR 167/SR 509 Puget Sound Gateway project
36 (M00600R).

37 (a) Any savings on the project must stay on the Puget Sound
38 Gateway corridor until the project is complete.

1 (b) In making budget allocations to the Puget Sound Gateway
2 project, the department shall implement the project's construction as
3 a single corridor investment. The department shall continue to
4 collaborate with the affected stakeholders as it implements the
5 corridor construction and implementation plan for state route number
6 167 and state route number 509. Specific funding allocations must be
7 based on where and when specific project segments are ready for
8 construction to move forward and investments can be best optimized
9 for timely project completion. Emphasis must be placed on avoiding
10 gaps in fund expenditures for either project.

11 (c) The entire multimodal transportation account—state
12 appropriation in this subsection is for:

13 (i) The design phase of the Puyallup to Tacoma multiuse trail
14 along the state route number 167 right-of-way acquired for the
15 project to connect a network of new and existing trails from Mount
16 Rainier to Point Defiance Park; and

17 (ii) Segment 2 of the state route number 167 completion project
18 shared-use path to provide connections to the interchange of state
19 route number 167 at 54th to the intersection of state route number
20 509 and Taylor Way in Tacoma.

21 (20) \$2,213,000 of the motor vehicle account—state appropriation
22 and \$14,012,000 of the connecting Washington account—state
23 appropriation are provided solely for the SR 224/Red Mountain
24 Vicinity Improvement project (L1000291). The department shall provide
25 funding to the city of West Richland to complete the project within
26 the project scope identified by the legislature and within the total
27 amount provided by the legislature. The department shall not amend
28 the project's scope of work to add pavement preservation on state
29 route number 224 from the West Richland city limits to Antinori Road.

30 (~~((a) — \$394,963,000))~~ (21) \$409,667,000 of the connecting
31 Washington account—state appropriation, (~~(\$400,000)~~) \$500,000 of the
32 state route number 520 corridor account—state appropriation,
33 \$10,000,000 of the state route number 520 civil penalties account—
34 state appropriation, \$52,000,000 of the JUDY transportation future
35 funding program account—state appropriation, and (~~(\$4,496,000)~~)
36 \$5,592,000 of the motor vehicle account—private/local appropriation
37 are provided solely for the SR 520 Seattle Corridor Improvements -
38 West End project (M00400R) and are subject to the following
39 conditions and limitations:

1 (a) The department shall immediately proceed with awarding the
2 bid for the Portage Bay Bridge and Roanoke Lid project to the team
3 that submitted the proposal with the apparent best value in September
4 2023. Consistent with negotiated timelines, the legislature expects
5 the award to be made by March 15, 2024, and assumes that the
6 department shall expedite executing the contract with the awarded
7 team. Once the contract is executed for this project, the department
8 shall seek consequential cost reduction opportunities through value
9 engineering and prioritizing functionality and usability of the
10 Portage Bay Bridge and Roanoke Lid. The department shall report on
11 the status of the project and cost reduction efforts to the
12 transportation committees of the legislature by December 15, 2024.

13 (b) Upon completion of the Montlake Phase of the West End project
14 (~~((current anticipated contract completion of 2023))~~), the department
15 shall sell or transfer that portion of the property not ~~((used))~~
16 necessary for ~~((permanent))~~ transportation ~~((improvements))~~ purposes,
17 and shall initiate a process to convey ~~((that))~~ or transfer such
18 portion of the surplus property to a subsequent owner.

19 (c) Of the amounts provided in this subsection, ~~(((\$400,000))~~
20 \$500,000 of the state route number 520 corridor account—state
21 appropriation is provided solely for noise mitigation activities. It
22 is the intent of the legislature to provide an additional \$600,000
23 for noise mitigation activities.

24 (d) Pursuant to chapter . . . (Substitute Senate Bill No. 6316),
25 Laws of 2024, the department shall apply for a sales tax deferral for

31 with King county and the Skyway coalition to align community assets,
32 transportation infrastructure needs, and initial design for safety
33 improvements along state route number 900; and (b) work with the
34 Skyway coalition to lead community planning engagement and active
35 transportation activities.

36 ~~((+22) \$25,000,000)~~ (23) \$7,500,000 of the motor vehicle account

39 surface transportation block grant population funding and state funds

1 at an exchange rate of 95 cents in state funds per \$1.00 in federal
2 funds. The projects receiving the exchanged federal funds must adhere
3 to all federal requirements, including the applicable disadvantaged
4 business enterprise goals. The entirety of the appropriation in this

9 reduction account—state appropriation is provided solely for the
10 department to establish an e-bike lending library and ownership grant
11 program. The department may accept grant applications from other
12 state entities, local governments, and tribes that administer or plan
13 to administer an e-bike lending library or ownership program for
14 their employees for commute trip reduction purposes. The department
15 may also accept grant applications from nonprofit organizations or
16 tribal governments that serve persons who are low-income or reside in

2 **Sec. 501.** 2023 c 472 s 601 (uncodified) is amended to read as
3 follows:

4 **MANAGEMENT OF TRANSPORTATION FUNDS WHEN THE LEGISLATURE IS NOT IN**
5 **SESSION**

6 (1) The 2005 transportation partnership projects or improvements
7 (~~and~~), 2015 connecting Washington projects or improvements, and
8 move ahead WA projects or improvements are listed in the LEAP
9 Transportation Document (~~(2023-1)~~) 2024-1 as developed (~~(April 21,~~
10 ~~2023)~~) March 6, 2024, which consists of a list of specific projects
11 by fund source and amount over multiple biennia. Current fiscal
12 biennium funding for each project is a line-item appropriation, while
13 the outer year funding allocations represent a 16-year plan. The
14 department of transportation is expected to use the flexibility
15 provided in this section to assist in the delivery and completion of
16 all transportation partnership account (~~and~~), connecting Washington
17 account, and move ahead WA account projects on the LEAP
18 transportation document referenced in this subsection. For the
19 2023-2025 project appropriations, unless otherwise provided in this
20 act, the director of the office of financial management may provide
21 written authorization for a transfer of appropriation authority
22 between projects funded with transportation partnership account
23 appropriations (~~or~~), connecting Washington account appropriations,
24 or move ahead WA account appropriations to manage project spending
25 and efficiently deliver all projects in the respective program under
26 the following conditions and limitations:

27 (a) Transfers may only be made within each specific fund source
28 referenced on the respective project list;

29 (b) Transfers from a project may not be made as a result of the
30 reduction of the scope of a project or be made to support increases
31 in the scope of a project;

32 (c) Transfers from a project may be made if the funds
33 appropriated to the project are in excess of the amount needed in the
34 current fiscal biennium;

35 (d) Transfers may not occur for projects not identified on the
36 applicable project list;

37 (e) Transfers to a project may not occur if that project is a
38 programmatic funding item described in broad general terms on the

1 applicable project list without referencing a specific state route
2 number;

3 (f) Transfers may not be made while the legislature is in
4 session;

5 (g) Transfers to a project may not be made with funds designated
6 as attributable to practical design savings as described in RCW
7 47.01.480;

8 ~~((Except for transfers made under (l) of this subsection,~~
9 ~~transfers may only be made in fiscal year 2024;~~

10 ~~(i))~~) The total amount of transfers under this section may not
11 exceed \$50,000,000;

12 ~~((j))~~) (i) Except as otherwise provided in ~~((l))~~) (k) of this
13 subsection, transfers made to a single project may not cumulatively
14 total more than \$20,000,000 per fiscal biennium;

15 ~~((k))~~) (j) Each transfer between projects may only occur if the
16 director of the office of financial management finds that any
17 resulting change will not hinder the completion of the projects as
18 approved by the legislature; and

19 ~~((l))~~) (k) Transfers between projects may be made by the
20 department of transportation without the formal written approval
21 provided under this subsection ~~((l))~~) (1)(k), provided that the
22 transfer amount to a single project does not exceed \$250,000 or 10
23 percent of the total project per fiscal biennium, whichever is less.
24 These transfers must be reported quarterly to the director of the
25 office of financial management and the chairs of the house of
26 representatives and senate transportation committees.

27 (2) The department of transportation must submit quarterly all
28 transfers authorized under this section in the transportation
29 executive information system. The office of financial management must
30 maintain a legislative baseline project list identified in the LEAP
31 transportation documents referenced in this act, and update that
32 project list with all authorized transfers under this section,
33 including any effects to the total project budgets and schedules
34 beyond the current fiscal biennium.

35 (3) At the time the department submits a request to transfer
36 funds under this section, a copy of the request must be submitted to
37 the chairs and ranking members of the transportation committees of
38 the legislature.

39 (4) Before approval, the office of financial management shall
40 work with legislative staff of the house of representatives and

37 within the 2023-2025 fiscal biennium.

1 (2) The department must compile a list of projects under this
2 section, including the timing under which the local partner agency

13 an airport, owned or controlled, or to be owned or controlled by such
14 person or persons, and to be held available for the general use of
15 the public.

16 (b) Such financial assistance may be furnished in connection with
17 federal or other financial aid for the same purposes: PROVIDED, That
18 no grant or loan, or both, shall be in excess of (~~seven hundred~~
19 ~~fifty thousand dollars~~) \$750,000 for any one project: PROVIDED
20 FURTHER, That no grant or loan, or both, shall be granted unless the
21 municipality or municipalities acting jointly, the tribe or tribes
22 acting jointly, or the person or persons acting jointly shall from
23 their own funds match any funds made available by the department upon
24 such ratio as the department may prescribe.

25 (c) The requirements of (b) of this subsection do not apply for
26 projects when directed to do so by the legislature during the
27 2023-2025 fiscal biennium in an omnibus transportation appropriations
28 act.

29 (d) The department must establish, by rule, criteria for
30 administering financial assistance to any entity.

31 (3) The department is authorized to act as agent of any
32 municipality or municipalities acting jointly, any tribe or tribes

6 municipality on its own behalf, may enter into any contracts, with
7 each other or with the United States or with any person, which may be
8 required in connection with a grant or loan of federal moneys for
9 airport or air navigation facility purposes. All federal moneys
10 accepted under this section shall be accepted and transferred or
11 expended by the department upon such terms and conditions as are
12 prescribed by the United States. All moneys received by the
13 department pursuant to this section shall be deposited in the state
14 treasury, and, unless otherwise prescribed by the authority from
15 which such moneys were received, shall be kept in separate funds
16 designated according to the purposes for which the moneys were made
17 available, and held by the state in trust for such purposes. All such
18 moneys are hereby appropriated for the purposes for which the same
19 were made available, to be disbursed or expended in accordance with
20 the terms and conditions upon which they were made available:
21 PROVIDED, That any landing fee or charge imposed by any Indian tribe
22 or tribes for the privilege of use of an airport facility planned,
23 acquired, constructed, improved, maintained, or operated with
24 financial assistance from the department pursuant to this section

1 employees for ride sharing, for using public transportation, for
2 using car sharing, or for using nonmotorized commuting before January
3 1, (~~2024~~) 2025, are allowed a credit against taxes payable under
4 chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of
5 employees for ride sharing in vehicles carrying two or more persons,
6 for using public transportation, for using car sharing, or for using
7 nonmotorized commuting, not to exceed (~~sixty dollars~~) \$60 per
8 employee per fiscal year.

9 (2) Property managers who are taxable under chapter 82.04 or
10 82.16 RCW and provide financial incentives to persons employed at a
11 worksite in this state managed by the property manager for ride
12 sharing, for using public transportation, for using car sharing, or
13 for using nonmotorized commuting before January 1, 2024, are allowed

16 vehicles carrying two or more persons, for using public
17 transportation, for using car sharing, or for using nonmotorized
18 commuting, not to exceed (~~sixty dollars~~) \$60 per person per fiscal
19 year.

20 (3) The credit under this section is equal to the amount paid to
21 or on behalf of each employee multiplied by (~~fifty~~) 50 percent, but
22 may not exceed (~~sixty dollars~~) \$60 per employee per fiscal year. No
23 refunds may be granted for credits under this section.

24 (4) A person may not receive credit under this section for
25 amounts paid to or on behalf of the same employee under both chapters
26 82.04 and 82.16 RCW.

27 (5) A person may not take a credit under this section for amounts
28 claimed for credit by other persons.

29 **Sec. 609.** RCW 82.70.040 and 2022 c 182 s 311 are each amended to
30 read as follows:

31 (1)(a) The department must keep a running total of all credits
32 allowed under RCW 82.70.020 during each fiscal year. The department
33 may not allow any credits that would cause the total amount allowed
34 to exceed \$2,750,000 in any fiscal year.

35 (b) If the total amount of credit applied for by all applicants
36 in any year exceeds the limit in this subsection, the department must
37 ratably reduce the amount of credit allowed for all applicants so
38 that the limit in this subsection is not exceeded. If a credit is

1 reduced under this subsection, the amount of the reduction may not be
2 carried forward and claimed in subsequent fiscal years.

3 (2) (a) Tax credits under RCW 82.70.020 may not be claimed in
4 excess of the amount of tax otherwise due under chapter 82.04 or
5 82.16 RCW.

6 (b) Through June 30, 2005, a person with taxes equal to or in
7 excess of the credit under RCW 82.70.020, and therefore not subject
8 to the limitation in (a) of this subsection, may elect to defer tax
9 credits for a period of not more than three years after the year in
10 which the credits accrue. For credits approved by the department
11 through June 30, 2015, the approved credit may be carried forward and
12 used for tax reporting periods through December 31, 2016. Credits
13 approved after June 30, 2015, must be used for tax reporting periods
14 within the calendar year for which they are approved by the
15 department and may not be carried forward to subsequent tax reporting
16 periods. Credits carried forward as authorized by this subsection are
17 subject to the limitation in subsection (1)(a) of this section for
18 the fiscal year for which the credits were originally approved.

19 (3) No person may be approved for tax credits under RCW 82.70.020
20 in excess of \$100,000 in any fiscal year. This limitation does not
21 apply to credits carried forward from prior years under subsection
22 (2)(b) of this section.

23 (4) No person may claim tax credits after June 30, ((2024)) 2025.

24 **Sec. 610.** RCW 82.70.900 and 2023 c 374 s 18 are each amended to
25 read as follows:

26 This chapter expires July 1, ((2024)) 2025.

27 **Sec. 611.** 2022 c 182 s 503 (uncodified) is amended to read as
28 follows:

29 ((Sections 311 and)) Section 403 of this act ((expire)) expires
30 July 1, 2024.

31 **Sec. 612.** 2023 c 445 s 1 (uncodified) is amended to read as
32 follows:

33 The department of licensing shall develop a comprehensive
34 implementation plan for the expansion of the current driver training
35 education requirement to obtain a driver's license to persons between
36 the ages of 18 and 24. The target date for implementation of the new
37 driver training education expansion is July 1, 2026. The driver

1 training education expansion plan must be provided to the
2 transportation committees of the legislature by (~~October~~) December
3 1, 2024, and must include, but need not be limited to, the following:

4 (1) (a) Consideration of courses that could satisfy the new driver
5 training education requirement, including a condensed course option
6 and a self-paced, online course option, with attention to the
7 educational value, monetary and time costs required, and possible
8 accessibility constraints for each course option considered; and

9 (b) Within the work specified in (a) of this subsection, an
10 analysis of a mandatory driver's education refresher course
11 requirement consisting of in-person or virtual classroom-based
12 instruction on risk management and hazard protections one year after
13 licensure, including the course appropriateness for intermediate
14 license holders;

15 (2) An assessment of public and private resources necessary to
16 support the new driver training education requirement to ensure
17 sufficient course availability and accessibility, including
18 opportunities for the department of licensing to provide driver
19 training education directly or to facilitate partnerships with
20 schools, community organizations, or driver training providers, to
21 close availability and accessibility gaps in rural and underserved
22 areas. The assessment must include, but need not be limited to, an
23 inventory of the current number, and an estimate of the increased
24 number required to meet the anticipated need, of the following:

25 (a) Licensed driver training schools and traffic safety education
26 programs in the state, by geographical region;

27 (b) Licensed driver training school and traffic safety education
28 instructors;

29 (c) Licensed driver trainer instructors; and

30 (d) Driver training education course spaces available per year,
31 by course option and for both classroom and behind-the-wheel
32 instruction;

33 (3) In consultation with the office of equity, evaluation of
34 access to driver training education courses and consideration of
35 opportunities to improve access to driver training education for
36 young drivers. The assessment must address, but should not be limited
37 to, potential obstacles for young drivers for whom the cost of driver
38 training education may pose a hardship, obstacles related to
39 accessibility for young drivers who reside in rural areas, and
40 obstacles for young drivers whose primary language is not English.

1 The assessment must also include strategies that can be used to
2 mitigate these potential obstacles, including possible exceptions to,
3 or substitutions for, a driver training education requirement in
4 cases where access-related obstacles cannot be overcome, such as when
5 a behind-the-wheel driver training program may not be available
6 within a reasonable distance of a person's residence;

7 (4) A plan for broad and accessible public outreach and education
8 to communicate to Washington state residents new driver training
9 education requirements, including a plan for the development of tools
10 to assist residents in accessing driver training education courses
11 that meet the new requirements;

12 (5) Collaboration with educational service districts to determine
13 the extent to which educational service districts can facilitate the
14 coordination between school districts or secondary schools of a
15 school district and driver training schools to increase access to
16 driver training education courses by students who reside within the
17 boundaries of an applicable school district;

18 (6) An examination of opportunities to address the financial need
19 of persons for whom the cost of driver training education courses
20 licensed by the department of licensing may pose a hardship, through
21 a voucher or other financial assistance program. The examination must
22 include quantified estimates of the extent to which the cost of
23 driver training education could pose a significant obstacle, as well
24 as possible approaches to help reduce or eliminate this obstacle;

25 (7) An examination, in consultation with the office of the
26 superintendent of public instruction, of opportunities to address the
27 financial need of students for whom the cost of driver training
28 education offered as part of a traffic safety education program may
29 pose a hardship, through a grant or other financial assistance
30 program. The examination must include quantified estimates of the
31 extent to which the cost of driver training education could pose a
32 significant obstacle, as well as possible approaches to help reduce
33 or eliminate this obstacle; and

34 (8) An assessment of approaches used by other states that require
35 driver training by persons age 18 and older, including examination of
36 how this has impacted traffic safety in the state and the extent to
37 which the requirement may have decreased access to driver's licenses,
38 including through examination of the rate of driver's license holders
39 by age and other demographic characteristics compared to that of
40 neighboring, or otherwise similarly situated, states.

1 **Sec. 613.** 2023 c 472 s 701 (uncodified) is amended to read as
2 follows:

3 **INFORMATION TECHNOLOGY OVERSIGHT**

16 NEW SECTION. **Sec. 614.** A new section is added to 2023 c 472
17 (uncodified) to read as follows:

18 (1) The transportation carbon emissions reduction account is
19 created in the state treasury. Moneys in the account may be spent
20 only after appropriation. Expenditures from the account are intended
21 to effect reductions in transportation sector carbon emissions
22 through a variety of carbon reducing investments. Such investments
23 may include, but are not limited to: Transportation alternatives to
24 single occupancy passenger vehicles; reductions in single occupancy
25 passenger vehicle miles traveled; reductions in per mile emissions in
26 vehicles, including through the funding of alternative fuel
27 infrastructure and incentive programs; and emission reduction
28 programs for freight transportation, including motor vehicles and
29 rail, as well as for ferries and other maritime and port activities.
30 Expenditures from the account may be made only for transportation
31 carbon emission reducing purposes and may not be made for highway
32 purposes authorized under the 18th Amendment of the Washington state
33 Constitution, other than as specified in this section, and must be
34 made in accordance with subsection (2) of this section. It is the
35 legislature's intent that expenditures from the account used to
36 reduce carbon emissions be made with the goal of achieving equity for
37 communities that historically have been omitted or adversely impacted
38 by past transportation policies and practices.

1 (2) Appropriations in an omnibus transportation appropriations
2 act from the transportation carbon emissions reduction account must
3 be made exclusively to fund the following activities:

- 4 (a) Active transportation;
- 5 (b) Transit programs and projects;
- 6 (c) Alternative fuel and electrification;
- 7 (d) Ferries; and
- 8 (e) Rail.

9 (3) Unless otherwise specified in this act, appropriations in
10 chapter 472, Laws of 2023 (2023-2025 biennial transportation
11 appropriations act), and chapter . . ., Laws of 2024 (this act),
12 which are appropriated from the carbon emissions reduction account in
13 amounts provided beginning before January 1, 2025, shall be paid from
14 the transportation carbon emissions reduction account as if they were
15 appropriated from that account, beginning on the effective date of
16 Initiative Measure No. 2117.

17 (4) Any residual balance of funds remaining in the carbon
18 emissions reduction account on or after the effective date of
19 Initiative Measure No. 2117 must be transferred by the state
20 treasurer to the transportation carbon emissions reduction account.

21 (5) Any amounts provided from the carbon emissions reduction
22 account in chapter . . ., Laws of 2024 (this act) and which are
23 specified to begin January 1, 2025, must lapse.

24 (6) If Initiative Measure No. 2117 is not approved at the 2024
25 general election, this section has no force and effect.

26 (7) This section expires July 1, 2025.

27 NEW SECTION. **Sec. 615.** (1) This section is the tax preference
28 performance statement for section 608, chapter . . ., Laws of 2024
29 (section 608 of this act). This performance statement is only
30 intended to be used for subsequent evaluation of the tax preference.
31 It is not intended to create a private right of action by any party
32 or be used to determine eligibility for the preferential tax
33 treatment.

34 (2) The tax preference performance statement in section 413,
35 chapter 44, Laws of 2015 3rd sp. sess. applies to the expansion of
36 the tax preference in section 608 of this act.

37 NEW SECTION. **Sec. 616.** A new section is added to 2023 c 472
38 (uncodified) to read as follows:

1 Appropriations in this act from the natural climate solutions
2 account, carbon emissions reduction account, climate transit programs
3 account, and climate active transportation account are subject to the
4 requirements of RCW 70A.65.030.

3 application to any person or circumstance is held invalid, the
4 remainder of the act or the application of the provision to other
5 persons or circumstances is not affected.

6 NEW SECTION. **Sec. 702.** Except for section 602 of this act, this
7 act is necessary for the immediate preservation of the public peace,
8 health, or safety, or support of the state government and its
9 existing public institutions, and takes effect immediately.

10 NEW SECTION. **Sec. 703.** Section 602 of this act takes effect
