

Alexis Blue  
Assistant Director, Facilities Development  
Western Washington University  
Project Review Committee, Owner – Higher Education

February 29, 2024

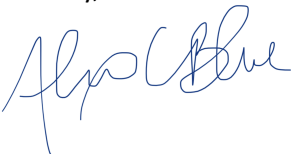

Re: Owner – Higher Education continued seat on PRC

I am writing to express my interest in maintaining my position on the Project Review Committee (PRC) as a Higher Education Owner representative. I am committed to PRC's mandate and dedication to contributing to the ongoing success of alternative contract delivery on public works construction in Washington.

As an employee of Western Washington University, I bring experience in managing public works projects for higher education facilities. Since becoming the Assistant Director of Facilities Development, I have been integral in five projects that use alternative delivery (two GC/CM and three PDB) totaling over \$250 million. This includes overseeing budgets, adhering to schedules, securing funding, mitigating risks, ensuring operational and maintenance considerations, prioritizing safety protocols, and promoting business diversity within our projects. These projects have developed my understanding and hands-on experience with alternative capital project delivery methodologies as defined in RCW 39.10. I am also serving on GC/CM committee where we are currently authoring a Best Practices document.

Thank you for considering my request. I look forward to the opportunity to continue serving on the committee and contributing to its continued impact.

Sincerely,

ALEXIS BLUE, PE, MS, PMP
